

Montana State Horse Project Bit Rule Examples

The following pages are guidelines of the rules stated in the **Montana State Horse Show rule book**. The pictures show examples of bits that are acceptable (✓), are not allowed (⊘), or may or may not be acceptable (?) depending on a measurement that cannot be judged by the picture. Understand that this supplement gives only some *examples* of legal and unacceptable bits. **In no way does it try to include every bit that is allowed or not allowed.** If there are any discrepancies between this and the printed rulebook text, the printed rulebook will have precedence.

B. Reference to snaffle bits in western performance classes mean the conventional O-ring, egg-butt or D-ring with ring no larger than 4". The mouthpiece should be round, oval, or egg-shaped, smooth and unwrapped metal. It may be inlaid, but must be smooth. The bars must be a minimum of 5/16" in diameter, measured one inch in from the cheek with a gradual decrease to center of the snaffle. The mouthpiece may be two or three pieces. A three-piece, loose connecting ring of 3/4" or less in diameter, or a connecting flat bar of 3/8" to 3/4" (measured top to bottom, with a maximum length of 2"), which lies flat in the horse's mouth is acceptable.

C. References to a bit in western performance classes mean the use of a curb bit that has a solid or broken mouthpiece, has shanks and acts with leverage. All curb bits must be free of mechanical device and should be considered a standard western bit. A description of a legal, standard western bit includes:

Legal Bit

? Port would have to measure $\leq 2 \frac{1}{2}$ " high and shanks $\leq 8 \frac{1}{2}$ " long

- 1) 8 1/2" maximum length shank to be measured as indicated in the diagram illustrating legal bit. Shanks may be fixed or loose.
- 2) Curb bit mouthpieces must be round, smooth, and unwrapped metal of 5/16" to 3/4" in diameter, measured one inch from the cheek. They may be inlaid, but must be smooth. Nothing may protrude below the mouthpiece (bar), such as extensions or prongs on solid mouthpieces. The mouthpiece may be two or three pieces. A three-piece, loose connecting ring of 3/4" or less in diameter, or a connecting flat bar of 3/8 to 3/4" (measured top to bottom with a maximum length of 2"), which lies flat in the horse's mouth is acceptable.
- 3) The port on a bit must not be higher than 2 1/2" maximum, with rollers and covers acceptable. Broken mouthpieces, halfbreeds and spades are standard.
- 4) Slip or gag bits, and donut and flat polo mouthpieces are not acceptable.

This extension may be carried in the free hand with a 16 inch spacing between the reining hand and the free hand holding the romal. The rider's hand shall be around the reins with the fingers closed, thumb on top, and no fingers between the reins.

I. Chain curb straps are permissible, but must meet the approval of the judge, be at least 1/2" inch in width, and lie flat against the jaw of the horse. Absolutely no rigid material will be permitted under the jaws, regardless of how padded or covered.
