

Reducing Hazardous Fuels

Structure + Priority Zones 1 - 2 - 3

Zone One

0—30 feet around your home

- Hard surfaces and deciduous species for landscaping.
- Store firewood and other combustible at least 30 feet from the structure.

Zone Two

30—100 feet around your home

- Remove **Ladder Fuels** including small trees and pruning larger trees 8—12 feet.
- Remove down woody materials and leaf and needle debris.
- Create **Tree Crown Space** between trees: 10—12 feet between crowns and 12—20 between small clumps.

Zone Three

100—200 feet around your home

- Create Tree Crown Space between trees: 10—12 feet between crowns and 12—20 between small clumps.
